

Dear Recruitment Team,

I am excited to apply for the position of **ASP.NET Developer** at SaRa Lifestyle Ltd. With a strong foundation in **.NET Core, C#, ASP.NET MVC, Web API, Entity Framework Core, and SQL**, I believe my skills and experience align closely with the requirements outlined in your job posting.

I hold a **BSc in Computer Science and Engineering** from Gopalganj Science and Technology University and currently work as a **Software Engineer at Symphony Softtech Ltd.**, where I have been involved in **ERP-level software development**. My work has strengthened my expertise in **Clean Architecture, database design, stored procedures, and writing optimized LINQ queries**.

In addition, I have developed several projects, including an **Inventory Management System** and an **E-Commerce Platform** using **ASP.NET, C#, JavaScript, jQuery, React.js, and MySQL/SQL Server**, which enhanced my ability to design scalable and efficient applications.

Beyond technical skills, I bring strong **problem-solving abilities, teamwork, and adaptability**. Having solved over **2000 coding problems across platforms like Codeforces, CodeChef, and LeetCode**, I continuously sharpen my analytical and programming skills.

I am impressed by SaRa Lifestyle's commitment to modern development practices, including **CI/CD pipelines and Clean Architecture**, and I am eager to contribute to building scalable, secure, and high-performing solutions as part of your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my background can contribute to SaRa Lifestyle's growth and success.

Sincerely,

Sumon Roy
